ed down 20 points in as many seconds, and St. Paul suffered almost as badly. Large and small brokers rushed to the scene until Throgmorton street became impassable.

Rain poured down, but the excited crowd paid no heed to it. All sorts of conditions and prices were shouted at the top of the operators' voices. Down, down, went Americans. Rail of every description was quoted at rock bottom prices and steel and other securities fell in sympathy. Then the reaction set in. Up and down went Americans. After about a half hour of this panicky speculation more reason prevailed and they rose to within a few points of their price when the stock exchange closed. But long after the usual hours hundreds of stock brokers, most of them drenched to the skin, traded in the hope of getting clear before tomorrow's opening.

ON BASIS OF 150.

By Associated Press. New York, May 9.—Tonight an individual party to a conference relating to the strained conditions in Wall street this week said: "Tomorrow morning, Kuhn, Loeb & Co. will publish a notice saying that they will let out their Northern Pacific to shorts at \$150. A positive statement was made tonight that tomorrow J. P. Morgan & Co. will notify shorts that they will be released of short obligations to Morgan & Co. on a basis of \$150."
